1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest the potential adjustment device comprises a voltage divider formed by two serially connected FETs for dividing a voltage applied to the voltage divider and for supplying a potential at a node between the two voltage divider FETs as the adjustment potential as called for in claim 1. Therefore, claims 1-6 and 8-11 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
